

Landscapes of Resilience

Erika S. Svendsen, PhD - U.S. Forest Service

Stewards as 'first responders'
adaptive / polycentric

The accessibility of nature
biophysical and social legacies

Stewardship persists
stabilize feedback loops

Living Memorials to September 11

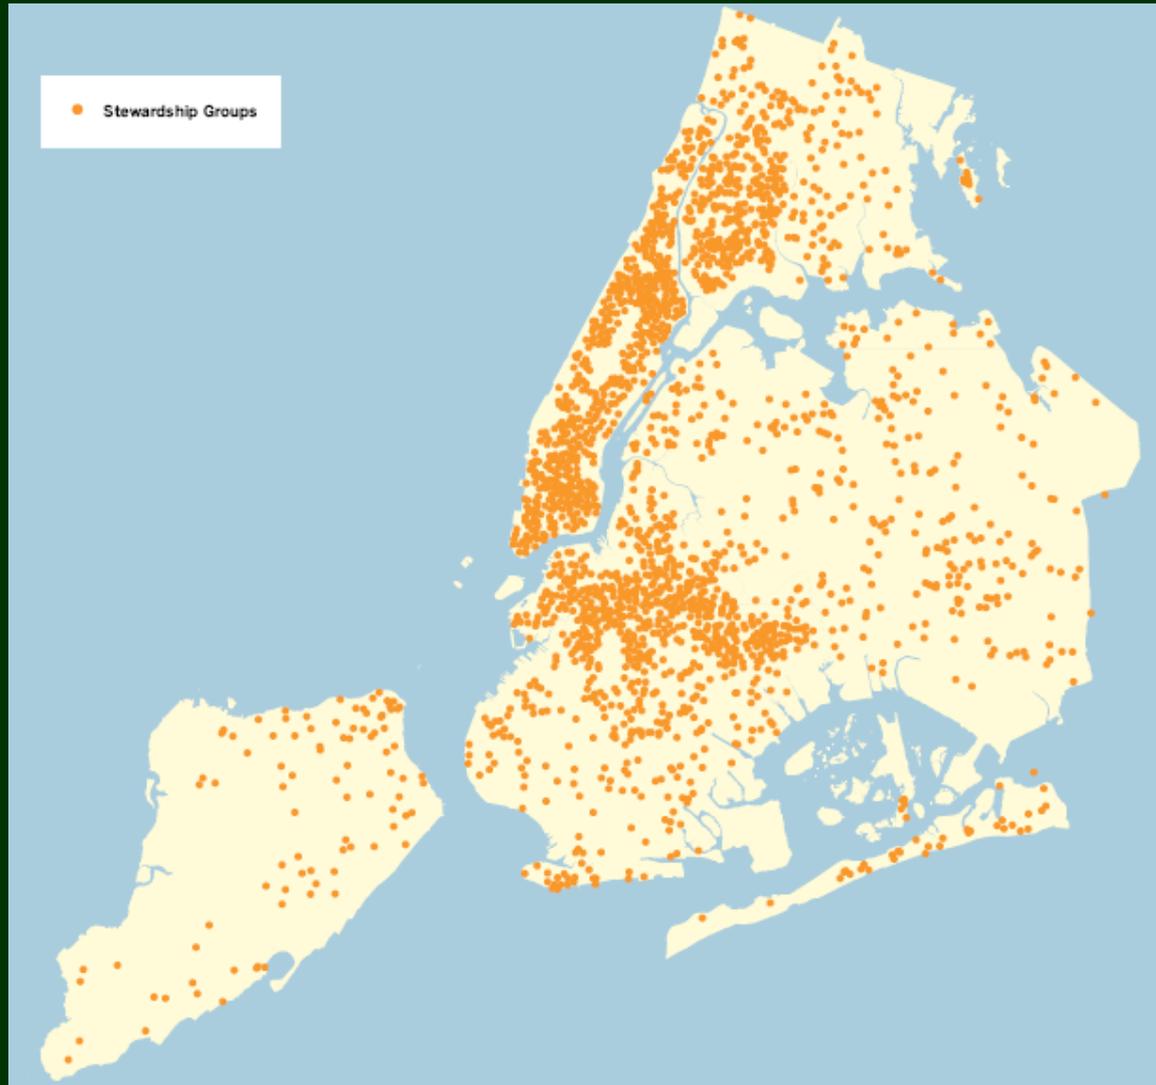

The unexpected

Ordinary becomes sacred

The emergence of civic environmental stewardship organizations

New York City Community Gardens

How do we know it when we see it?

Extreme Weather

Joplin, MO

Nature as a mechanism for recovery

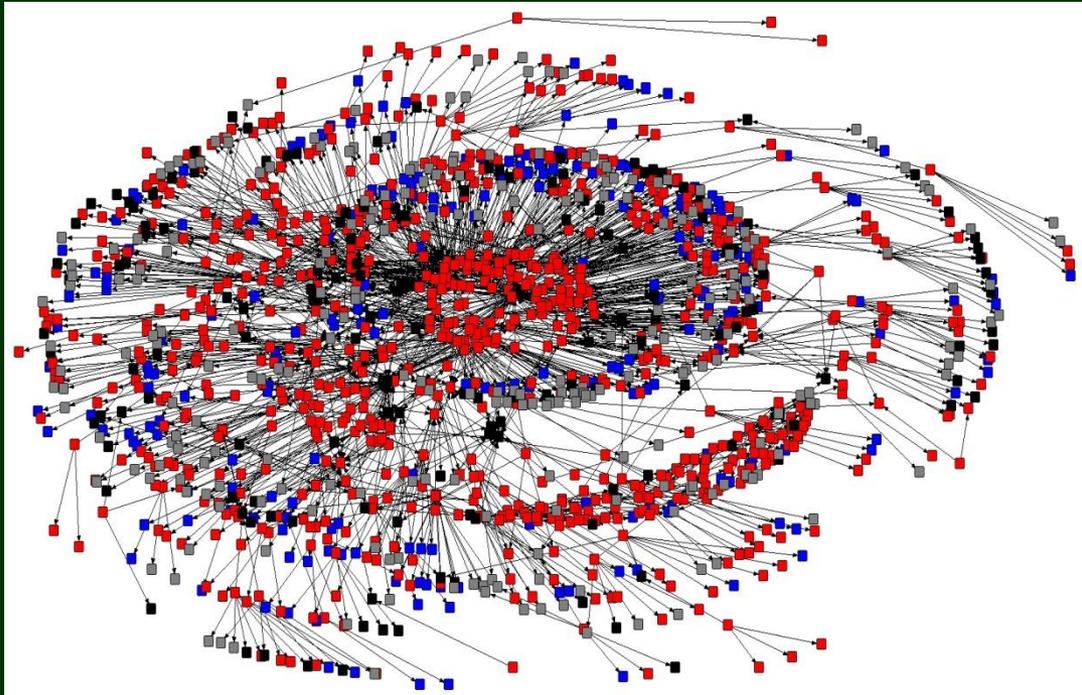

Joplin, MO

Extreme weather

Subtle human effects

Queens, NY

Stewardship
a patterned human response

Nature
a restorative mechanism

Emergence
ordinary becomes sacred

Networks & Hybridity
a social innovation
